### **ANNEXED NOTE**

#### **1. Technical Notes and Definitions**

The table provides **mid-year estimates** of Bahrain's total resident population (nationals and non-nationals) by age group, based on the results of census 2020.

**Census 2020 implementation method:**

Census 2020 was conducted solely on the basis of administrative records on the de jure population of the Kingdom.

**Population of reference:** all individuals (nationals and non-nationals) usually present within the State's borders during time of reference.

The **nationality** of the person is defined by the passport used to enter the country. A non-Bahraini is considered as such depending on the passport used to enter the country (or obtain the visa)
