ANNEXED NOTE

1. Technical Notes and Definitions

The table provides **mid-year estimates** of Bahrain's total resident population (nationals and non-nationals) by age group, based on the results of census 2020.

Census 2020 implementation method:

Census 2020 was conducted solely on the basis of administrative records on the de jure population of the Kingdom.

Population of reference: all individuals (nationals and non-nationals) usually present within the State's borders during time of reference.

The **nationality** of the person is defined by the passport used to enter the country. A non-Bahraini is considered as such depending on the passport used to enter the country (or obtain the visa)

2. Institution which provides data

Information & eGovernment Authority (IGA)

3. Data availability

Some datasets from census 2020 and estimates of population numbers and characteristics based on the census' results are available on IGA's Bahrain Open Data Portal:
