ANNEXED NOTE

1. Technical Notes and Definitions

The table provides **mid-year estimates** of Bahrain's total resident population (nationals and non-nationals) by age group, based on the results of census 2020.

Census 2020 implementation method:

Census 2020 was conducted solely on the basis of administrative records on

the de jure population of the Kingdom.

Population of reference: all individuals (nationals and non-nationals) usually present within the State's borders during time of reference.

The **nationality** of the person is defined by the passport used to enter the country. A non-Bahraini is considered as such depending on the passport used to enter the country (or obtain the visa)
