ANNEXED NOTE

1. Technical Notes and Definitions

This table shows the flow of renewed permits (or visas) that are given to foreign investors by the LMRA by sector of economic activity.
The **LMRA Expatriate Management System (EMS)** stores information and past history of sponsors and workers, and their dependents, within the scope of Law No. 19/2006 on regulating the labour market. The scope of the system covers regular, temporary and investor work visas for foreign workers, their dependents, in the commercial sector, the government sector and the non-commercial, non-government sector. It presently excludes domestic workers, and work visas for artists and certain other categories of workers in non-civilian organizations. It distinguishes four types of visas for operational purposes: regular work visas for workers with 24-month validity; temporary work visas issued for workers with 6-month validity; investor work visas issued for investors investing up to BD 100,000; and dependent visas issued for dependent members of eligible foreign workers.The system tracks visa applications, renewals, mobility of workers between employers and from one occupation to another as well as notification of termination and runaway workers, and in general all operations of LMRA including inspection and offence management. The system is updated continuously and linked with other labour-related databases of the Kingdom, including CIO, GDNPR, GOSI, PFC, CSB, Ministry of Labour (MoL), and Ministry of Industry and Commerce (MOIC). Investor work visas are issued for investors investing up to BD 100,000.
