**ANNEXED NOTE**

## 1. Technical Notes and Definitions

This table shows the flow of new permits (or visas) that are given to foreign temporary workers by the LMRA by sector of economic activity.

The **LMRA Expatriate Management System (EMS)** stores information and past history of sponsors and workers, and their dependents, within the scope of Law No. 19/2006 on regulating the labour market. The scope of the system covers regular, temporary and investor work visas for foreign workers, their dependents, in the commercial sector, the government sector and the non-commercial, non-government sector. It presently excludes domestic workers, and work visas for artists and certain other categories of workers in non-civilian organizations. It distinguishes four types of visas for operational purposes: regular work visas for workers with 24-month validity; temporary work visas issued for workers with 6-month validity; investor work visas issued for investors investing up to BD 100,000; and dependent visas issued for dependent members of eligible foreign workers. The system tracks visa applications, renewals, mobility of workers between employers and from one occupation to another as well as notification of termination and runaway workers, and in general all operations of LMRA including inspection and offence management. The system is updated continuously and linked with other labour-related databases of the Kingdom, including CIO, GDNPR, GOSI, PFC, CSB, Ministry of Labour (MoL), and Ministry of Industry and Commerce (MOIC). Temporary Worker is a worker engaged to work in an enterprise for a short period of time, i.e. for less than two years and usually six months.

**Work Visa** is a legal certificate to allow a foreign worker to enter the country for working purposes for a period of two years with the possibility of renewal.

**Worker** is a generic term that refers to an employed person in general, or to an employee, a self-employed, or a particular category of worker, such as full-time or part-time worker, depending on the context in which the term is used. Four major categories of workers in terms of their status in employment are employees, employers, own-account workers, and unpaid family workers.
