## ANNEXED NOTE

### 1. Technical Notes and Definitions

**Sampling frame of LFB 2012:** Population Census 2010.

**Sample size:** 6895 households and 37629 individuals from: 1- Qatari households; 2- Non-Qatari regular (non-collective) households; 3- Non-Qatari small collective households (2 – 6 persons); 4- Non-Qatari large collective households (7 persons or more).

**Reference period for data collection:** April 2012.

**Reference period for the labor force data:** the week prior to the reference period for data collection (April 2012).

**Population of reference:** all Qatari and non-Qatari households present in Qatar on the night of survey, living in normal and collective households.

The collective households are a group of persons not related to each other and sharing living conditions in a residential unit, I.e. labor camps, students living boarding schools, nurses in hospitals... etc. The survey covered the small collective households (includes less than 7 persons) and large collective households (includes 7 persons or more).

The survey did not cover short periods accommodation, i.e. hotels.

**Occupations are categorised according to ISCO 88 international classification of occupations (major (1-digit) group titles).**

## **Employed population:**

Persons aged 15 years and above, who during the week preceding the survey:

- a) Perform a work for a wage, salary, profits or household gains, whether it was in cash or in kind.
- b) Are temporarily not employed, however, they still have an official relation with their work

**The table refers to employed workers (15 years or older) having worked no less than one hour during the week prior to data collection day in April 2012.**

## **2. Institution which provides data**
