Sources: national institutes of statistics

1- Definitions and remarks:

n/a: not applicable (sector is not singled out in country's statistics)

N.A.: Not available (data is not published)

Period of reference: Q2, 2022

Qatar: 2021 data.

UAE: end of year data.

"Mixed" sector refers to establishments in which the government shares capital with another party,

whether national, regional or foreign.

The listed sectors only exist in Qatar (and the UAE), or are not singled out in other countries' statistics.

The "Government" sector may not include employees in the security and military sectors.

Administrative records usually do not include self-employed persons.

Qatar: population of reference: labour force.

UAE: total population employed in private sector. Figures disaggregated by nationality are not available. No figures available for public sector and domestic sector employment.
