ANNEXED NOTE

Sources and Definitions

Figures of migrants in the GCC may be overestimated due to its comprising a large share of Gulf-born (second- and third- generation) non-nationals. Palestinians are holders of travel documents.

Some of the figures quoted are unverifiable estimates. Therefore, they should be taken as indicative only and should not be used for statistical purposes.

Sources: unless stated otherwise, receiving countries' estimates in relevant tables in the POP section of the GLMM database.

(d) Official estimate: Egyptian workers in Saudi Arabia number 968,000 (end

of 2013).

<https://www.middleeastmonitor.com/news/africa/14187-egyptians-represent-40-per-cent-of-saudi-arabias-total-expatriate-workforce>

“Estimates of family dependents: in the absence of any indication of the ratio of worker to family

dependents in the UAE, we use data available for Kuwait in 2012:”

2.4 workers per family dependent.

Estimates of Egyptians (total): $968,000 + (968,000 / 2.4) = 1,371,000$
