ANNEXED NOTE

1. Characteristics of data and definitions

The source of data used here is the Public Authority for Civil Information (PACI), an independent government body in charge of :

- 1- centralising all population and labour force data in order to manage a fully computerised population register
- 2- issuing mandatory civil identification cards to every resident of the country, regardless of age and nationality.

(a) Kuwaiti: the Kuwaiti nationality rests upon a document of Kuwaiti nationality or a certificate proving Kuwaiti nationality issued by the Ministry of Interior of Kuwait.

(b) Non-Kuwaiti: his/ her nationality is determined by the name of the State having issued the passport. The foreign national also entered Kuwait legally and has a stamp of residence.

The Biduns, stateless persons living in the Emirate, are counted with the non-nationals.

Data refer to the population employed and unemployed, registered in the three sectors of employment (public, private, domestic)

(c) Employed population in the labour force: population aged 15 years and above, in paid employment in the government or private sector, as itinerant worker, or in the domestic sector.

Note: figures of expatriates may differ slightly between PACI's various sources of data (database; tabulated data) and topic covered.
