ANNEXED NOTE

1. Characteristics of data and definitions

The 2021 Kuwait census is the eleventh census conducted in the country, and the first to be based on administrative records.

The Ministry of State for Communications and Information Technology has implemented the records-based population, establishments and building census through cooperation with the Central Statistical Bureau (CSB) and the Public Authority for Civil Information (PACI).

The census data was selected from the recommended data basket guide for the Unified Population and Housing Register-based Census 2020 for the countries of the Cooperation Council for the Arab States of the Gulf issued by the Gulf

Statistics Center for the year 2019, and from the data basket of the general census of the State of Kuwait 2011.

Education level: refers to degree or educational attainment in any language.

Definition of unemployment:

Unemployed who has previously been employed: An individual (15-64 years) who has previously been engaged in work in Kuwait for the purpose of earning, but who is not associated with any work during the period of time assignment or searching for a job. His\her working hours in the week of time assignment were not less than 15 hours.

Newly unemployed: Any individual (15-64 years) who has never been associated with any fruitful work in the State of Kuwait despite having the motivation to work and searching for a job during the period of time attribution but does not find it.
