Source: Annual Bulletin of Labour Force Sample Survey 2021

ANNEXED NOTE

1. Technical Notes and Definitions

The data is taken from 2021 Labour Force Survey (yearly synthesis)

Sampling frame: Population Census 2015.

Sample size: 59,997 persons, in 9,200 households: 1- Qatari households; 2- Non-Qatari regular (non-collective) households; 3- Non-Qatari small collective households or labour gatherings (2 – 6 persons); 4- Non-Qatari large collective households or large labour gatherings (7 persons or more)

Data Collection: The sample was divided into equal parts to collect data monthly. Each month 1/3 of the quarterly data were collected during the first two weeks of the month.

Reference period for the labour force data: the week prior to data collection day.

Population of reference: all Qatari and non-Qatari households present in Qatar on the night of survey, living in normal and collective households.

The **collective households** are a group of persons not related to each other

and sharing living conditions in a residential unit, I.e. labour camps, students living boarding

schools, nurses in hospitals... etc. The survey covered the small collective households (includes less than 7 persons) and large collective households (includes 7 persons or more).

The survey did not cover short periods accommodation, i.e. hotels.

The present data includes active population, i.e. employed and unemployed. It does not include persons seeking work for the first time.

“Mixed” sector refers to establishments in which the government shares capital with another party, whether national, regional or foreign.

The “Government” sector may not include employees in the security and military sectors.

2. Institution which provides data

Planning and Statistics Authority (PSA)

(<https://www.psa.gov.qa/en/Pages/default.aspx>)

3. Data availability

The Statistics Authority conducted the first labour Force Sample Survey in 2001. After 2006, surveys were conducted on an annual basis.

After 2013, LFS surveys were conducted on a quarterly basis.

Labour Force Surveys (yearly and quarterly data) can be downloaded from PSA’s website, in PDF and Excel format:
