ANNEXED NOTE

1. Technical Notes and Definitions

The data is taken from the Annual Bulletins of Labour Force Sample Surveys 2015 to 2023 (yearly syntheses)

Sampling frame : Population Censuses 2010, 2015 and 2020.

Sample size since 2020: 65,253 persons, in 10,560 households: 1- Qatari households; 2- Non-Qatari regular (non-collective) households; 3- Non-Qatari small collective households or labour gatherings (2 – 6 persons); 4- Non-Qatari large collective households or large labour gatherings (7 persons or more).

The collective households are a group of persons not related to each other and sharing living conditions in a residential unit, I.e. labour camps, students living boarding schools, nurses in hospitals... etc. The survey covered the small collective households (includes less than 7 persons) and large collective households (includes 7 persons or more).

Data Collection: Labour Force Survey data are collected on a monthly basis, and based on field surveys.

Reference period for the labour force data: the week prior to data collection day.

The survey does not cover short periods accommodation, i.e. hotels.

Employed population:

Persons aged 15 years and above, who during the week preceding the survey:

a) Perform a work for a wage, salary, profits or household gains, whether it

was in cash or in kind.

b) Are temporarily not employed, however, they still have an official relation with their work

Population of reference: labour force in the private sector, except for 2020 (employed population)

2. Institution which provides data

National Planning Council (NPC), formerly the Planning and Statistics Authority (PSA)
