## **ANNEXED NOTE**

### **1. Technical Notes and Definitions**

**The data is taken from Labour Force Survey 2022 (yearly synthesis)**

**Sampling frame:** Population Census 2020.

**Sample size:** 65,253 persons, in 10,560 households: 1- Qatari households; 2- Non-Qatari regular (non-collective) households; 3- Non-Qatari small collective households or labour gatherings (2 – 6 persons); 4- Non-Qatari large collective households or large labour gatherings (7 persons or more).

The collective households are a group of persons not related to each other and sharing living conditions in a residential unit, i.e. labour camps, students living boarding schools, nurses in hospitals... etc. The survey covered the small collective households (includes less than 7 persons) and large collective households (includes 7 persons or more).

**Data collection:** The sample was divided into equal parts to collect data monthly. Each month 1/3 of the quarterly data were collected during the first two weeks of the month.

**Reference period for the labour force data:** the week prior to data collection day.

**The survey did not cover short periods accommodation, i.e. hotels.**

### **Economically inactive population (outside the labour force)**

Individuals aged 15 years and above who are not included in the labour force (as employed or unemployed) and do not supply labour needed to produce economic goods or services, as they are not working, not looking for work, unable to work or not willing to join the labour force during the period of reference. Inactives can be students, homemakers, pensioners who are unable to work, individuals who are unable to work, who do not want or seek work, and others who are not working for other reasons.

### **2. Institution which provides data**

Planning and Statistics Authority
