ANNEXED NOTE

1. Technical Notes and Definitions

Sampling frame of Quarterly LFS 2013: Population Census 2010.

Sample size for the whole year: about 7000 households from: 1- Qatari households; 2- Non-Qatari regular (non-collective) households; 3- Non-Qatari small collective households (2 – 6 persons); 4- Non-Qatari large collective households (7 persons or more).

One fourth of the sample was covered every quarter; each month one third of the quarterly data was collected.

Reference period for data collection: October-December 2013.

Population of reference: all Qatari and non-Qatari households present in Qatar on the night of survey, living in normal and collective households.

The collective households are a group of persons not related to each other and sharing living conditions in a residential unit, I.e. labor camps, students living boarding schools, nurses in hospitals... etc. The survey covered the small collective households (includes less than 7 persons) and large collective households (includes 7 persons or more).

The survey did not cover short periods accommodation, i.e. hotels.

2. Institution which provides data

Qatar Statistics Authority (QSA), Ministry of Development Planning and Statistics
