ANNEXED NOTE

1. Technical Notes and Definitions

* **Figures of population aged 15 and above** are taken from 2015 Labour Force Survey (yearly synthesis)

Sampling frame of LFS 2015: Population Census 2010.

Sample size: 44,756 persons, in 6,953 households: 1- Qatari households; 2- Non-Qatari regular (non-collective) households;

Data Collection: The sample was divided into equal parts to collect data monthly. Each month 1/3 of the quarterly data were collected during the first two weeks of the month.

Reference period for the labour force data: the week prior to data collection day.

Population of reference: all Qatari and non-Qatari households present in Qatar on the night of survey, living in normal and collective households. The collective households are a group of persons not related to each other and sharing living conditions in a residential unit, I.e. labour camps, students living boarding schools, nurses in hospitals... etc.

The survey covered the small collective households (includes less than 7 persons) and large collective households (includes 7 persons or more). The survey did not cover short periods accommodation, i.e. hotels.

* **Figures of population aged 0-14** by nationality (national/ non-national) : **GLMM author's estimate**, based on the percentage distribution of population by broad age groups, sex and nationality for 2015, available in 2016 issue of report Women and Men in the State of Qatar- A Statistical Profile, published by the MDPS (tab. 1/3, p. 18).

2. Institution which provides data

Ministry of Development Planning and Statistics

(<http://www.mdps.gov.qa/en/pages/default.aspx>)

3. Data availability

The Statistics Authority conducted the first labour Force Sample Survey in 2001. Starting from 2006, the execution of these surveys came to be on annual basis.

Quarterly publications of Labour Force Surveys' data are also available since 2012.

2015' and earlier Labour Force Surveys can be downloaded from MDPS's website, in PDF and Excel format:
