#### ANNEXED NOTE

##### 1. Technical Notes and Definitions

Data do not include employees in the security and military sectors.

No metadata available. The administrative records used as a source of data is unmentioned.

The original dataset's title ("Manpower in the Public sector during year 2020"), could be misleading

When compared to the results of GStat Labour Market Statistics for Q4 of 2021, the totals of foreign workers

in the "public" sector (46,455) were closer to the LFS's figures of foreign workers in the Civil Service (46,317),

than to the figures of foreign workers in the government sector (98,880).

It is thus likely that MHRSD's figures of workers in the "Public" sector are referring to Civil service workers,

hence the heading of column B.

The foreign workers subscribing to the Social Insurance (GOSI) and working for the public sector are thus

not included in the figure of workers (Saudis and non-Saudis) (respectively, 330,737 Saudi and 116,318 non-Saudi workers

according to LFS Q4 2021).

The category of "resident" presumably refers to de facto refugee populations granted residency permits in Saudi

Arabia, such as some Rohingya refugees from Myanmar

(<https://english.alarabiya.net/News/gulf/2017/01/25/Over-190-000-Myanmar-nationals-granted-Saudi-residency>).
