Population of reference: all individuals (nationals and non-nationals) residing in the Kingdom during the period of reference.

The ultimate sampling unit is the household.

**(a) Household and household members:** A person or group of persons, related or not related, who share housing and food.

Servants, drivers and similar categories are considered to be part of the household if they live in the same housing unit.

**(b) Unemployed person:** A person aged 15 years and over who did not work during the reference week, was able and ready to work and had been actively looking for work during the last four weeks, but did not find any.

Unemployment refers to people who during the reference period: Are without work, available to work and actively seeking work

Reference period for seeking work: The latest full calendar month preceding the period of data collection

Reference period for availability for work: The seven days preceding the period of data collection
